

Parking Map for CSE

There is plenty of **on and off street parking** in Falls Church. The closest public lot is across Park Place from the Theatre - directly behind Clare and Don's. When parking please keep in mind the following:

- **Public parking spaces** are now painted (on the ground) **in light blue**, and have "2 Hour Parking" painted on them (also in blue). You will not be towed from any public space. This applies to off-street parking only.
- Regular on-street parking is not painted. If an (off-street) space is not painted blue, you may get towed if you park there. Some street parking is marked in light blue. Please look at the parking zones before parking there.
- The **most un-friendly lot** is the one directly across from the front of the Theatre, where the 7-Stars convenience store is located. If you park anywhere along the length of that lot, you will probably be towed.
- **Pay attention to the signs** - particularly when parking off street. Some private lots have posted tow zones.
- There is no parking on the main streets in Falls Church, but most side streets allow parking.
- There is **no parking** in the Applebee's restaurant lot, the Kaiser Permanente Hospital lot or the Park Washington office complex lot.
